PERSONAL PROFILE

Innovative, detail-oriented, and passionate IT student eager to solve real-world problems through software engineering. I am skilled in problem-solving, coding, and analytical thinking. Enthusiastic about emerging technologies, AI, and cybersecurity. Enjoys hackathons, coding challenges, and collaborating on tech-driven projects.

PROJECTS

Car dealership system: Used *C#* and *SQL management* to streamline vehicle inventory management, customer bookings, and sales tracking, improving operational efficiency with automated processes and a user-friendly interface.

Text messaging app(ongoing): I am utilizing *JavaScript* to develop a text messaging app, leveraging its capabilities for real-time communication, notifications, and secure data handling and using *UI/UX* design.

LIFE EXPERIENCE

Leadership & Project Management Experience:

- Led project teams to ensure objectives were met and high-quality work was delivered successfully.
- Served as student leader for three years in high school, maintaining classroom discipline, fostering a positive learning environment, and supporting academics excellence.

Entrepreneurship - Hairdressing Business

- Successfully managed a hairdressing business, demonstrating strong entrepreneurial skills, customer service, and financial management. Developed marketing strategies, including social media promotion, to attract and retain customers. Provided high-quality hairstyling services, building a loyal client base through excellent customer satisfaction.
